About me

Dynamic UX/UI Designer with a strong foundation in frontend development. Skilled in creating engaging user interfaces that seamlessly integrate with technical front-end structures. Passionate about delivering user-centric designs that balance aesthetic appeal with functional efficiency. Fluent in English and Spanish, excelling in collaborative, multidisciplinary environments.

Experience

UX/UI Designer / FrontEnd Developer

EstateAdvice.ca, Toronto - Sep 2023 - Present

- Developed and implemented brand identities, focusing on user-centric design principles.
- Developed a custom CMS template for administrative use, featuring integrated marketing report visualization and pre-publication content review capabilities.
- Transformed Figma mockups into fully functional websites, ensuring a seamless user experience.

UX/UI Designer / FrontEnd Developer

Girovago Productions, Montreal - Jan 2022 - Feb 2023

- Wore multiple hats, from crafting posters, tickets, and clothing to coordinating website development and managing production.
- Led UX design initiatives to enhance content branding for a non-profit organization.

UX/UI Designer / FrontEnd Developer

RECYCLABLE.TV, Montreal - May 2019 - Jan 2022

- Worked on UI development for web and mobile platforms.
- Generated digital content with a substantial and engaged audience.
- Designed digital and print materials for social impact campaigns, including those addressing global warming.

Media Account Consultant

Yellow Pages, Montreal - Mar 2023 - Aug 2023

- Earned certifications in Google Ads and Google Analytics
- Designed marketing campaigns for SMEs, utilizing technologies from tech giants.

Multimedia Specialist

Lionbridge Technologies, Montreal - Jan 2015 - May 2019

- Reviewed and rated social media content using a web application to measure data relevance.
 - Evaluated online web content based on detailed criteria.
-
